Employment History

MMM Farm, Anketell, Western Australia.

Full time Farm Hand (November 2018 - Current)

Adept handling of livestock, with a strong ability to maintain large quantities of poultry. Highly organized, proactive and punctual with a team-orientated mentality. Very analytical, observant and skilled at identifying and resolving a diverse range of concerns and problems around the farm. Have gained skills in the accounting software MYOB and generally proficient at designing regulation forms and tables.

Swindlers Bar & Restaurant, Mt Hotham, Victoria.

Full time Floor Staff and Pizza Chef (July 2014 – October 2018)

Regularly worked in excess of 60 hours per week. Efficiently clearing crockery, cutlery, glasses and any rubbish left on tables. Serving food to customers and taking dishes to tables all while making them feel welcome. Restocking fridges with drinks and snacks. Also responsible in the preparation of multiple Pizza ingredients while also making and balling the pizza dough. Working in a fast paced nature designing and cooking pizza's while keeping track of orders and confidently sending pizza's to the right tables.

Deployed Applications

MMM Farm Online Store. - <https://robert-rousset.github.io/MMM-Farm-App/>
Project Manager & Developer

Overview: The Application was designed to let customers order their products online, allowing the staff to pack and prepare the orders before their arrival.

Skills & Languages Used:

HTML, CSS, BULMA, JavaScript. Gained knowledge of the Google Maps API and Libraries. Used SMPT to send emails from the application. Made sure the layout is accessible across all devices.

Effectively Delegated Tasks and roles evenly among the group members.

Communicated the course of action and made use of good time management to deliver the application before the deadline.

Weather Dashboard. - <https://robert-rousset.github.io/Weather-Dashboard/>
Developer

Overview: This Application provides the current and future weather forecast for any major city. Also saves searched cities for later use.

Skills & Languages Used:

HTML, CSS, JavaScript. Made use of the moment.js library. Learnt how to fetch the Open Weather Map API and display the information that the user searches for. Effectively made use of my own styling to create a pleasant design.

Daily Planner. - <https://robert-rousset.github.io/Daily-Planner/>
Developer

Overview:

A simple, easy to use daily planner that allows users to add events to each hour of the day.

Skills & Languages Used:

HTML, CSS, JavaScript. Used for loops to create multiple elements.

Used local storage to keep track of users inputs, and display their information after re-loading the page.
